

Neuren (NEU) – ASX Announcement

25 July 2024

Neuren to participate in upcoming US investor conferences

Melbourne, Australia: Neuren Pharmaceuticals (ASX: NEU) today announced its participation in two US investor conferences in August and September 2024. The Canaccord Genuity Annual Growth Conference is held between 13-15 August EDT in Boston and the Morgan Stanley Annual Global Healthcare Conference is held between 4-6 September EDT in New York City.

About Neuren

Neuren is developing new drug therapies to treat multiple serious neurological disorders that emerge in early childhood and have no or limited approved treatment options. Recognising the urgent unmet need, all programs have been granted “orphan drug” designation in the United States. Orphan drug designation provides incentives to encourage development of therapies for rare and serious diseases.

DAYBUE™ (trofinetide) is approved by the US Food and Drug Administration (FDA) for the treatment of Rett syndrome in adult and pediatric patients two years of age and older. Neuren has granted an exclusive worldwide licence to Acadia Pharmaceuticals Inc. for the development and commercialisation of trofinetide.

Neuren’s second drug candidate, NNZ-2591, is in Phase 2 development for multiple neurodevelopmental disorders, with positive results achieved in Phase 2 clinical trials in Phelan-McDermid syndrome and Pitt Hopkins syndrome.
