Participants may submit questions at registration or during the session

Thursday 29 February 2024, Melbourne, Australia: Neuren Pharmaceuticals (ASX: NEU), following confirmation yesterday of the DAYBUE™(trofinetide) royalty in Q4 2023 for inclusion in its audited financial statements, will report its full-year 2023 financial results today and Neuren’s management will host an investor webinar at 16:30 Australian Eastern Daylight Time to discuss the results. Registration for the webinar may be completed via the link above.

About Neuren

Neuren is developing new drug therapies to treat multiple serious neurological disorders that emerge in early childhood and have no or limited approved treatment options. Recognising the urgent unmet need, all programs have been granted “orphan drug” designation in the United States. Orphan drug designation provides incentives to encourage development of therapies for rare and serious diseases.

DAYBUE™ (trofinetide) is approved by the US Food and Drug Administration (FDA) for the treatment of Rett syndrome in adult and pediatric patients two years of age and older. Neuren has granted an exclusive worldwide licence to Acadia Pharmaceuticals Inc. for the development and commercialisation of trofinetide.

Neuren’s second drug candidate, NNZ-2591, is in Phase 2 development for each of Phelan-McDermid syndrome, Angelman syndrome, Pitt Hopkins syndrome and Prader-Willi syndrome.
