

Neuren (NEU) – ASX announcement

5 June 2023

Neuren presenting at Jefferies Global Healthcare Conference

Melbourne, Australia: Neuren Pharmaceuticals (ASX: NEU) CEO Jon Pilcher will present at the Jefferies Global Healthcare Conference in New York on Thursday 8 June at 2:00pm EST (Friday 9 June at 4:00am AEST).

The presentation is available to live-stream, with the link available on Neuren’s website www.neurenpharma.com under Investors, Investor Presentations.

About Neuren

Neuren is developing new drug therapies to treat multiple serious neurological disorders that emerge in early childhood and have no or limited approved treatment options.

DAYBUE™ (trofinetide) is approved by the US Food and Drug Administration (FDA) for the treatment of Rett syndrome in adult and pediatric patients two years of age and older. Neuren has granted an exclusive licence to Acadia Pharmaceuticals Inc. for the development and commercialisation of trofinetide in North America, while retaining all rights outside North America.

Neuren is conducting Phase 2 trials of its second drug candidate, NNZ-2591, for each of Phelan-McDermid syndrome, Angelman syndrome, Pitt Hopkins syndrome and Prader-Willi syndrome.

Recognising the urgent unmet need, all programs have been granted “orphan drug” designation in the United States. Orphan drug designation provides incentives to encourage development of therapies for rare and serious diseases.
